

COMPANY OVERVIEW

CyberOne USA LLC is the American operating subsidiary of E-Tech LLC, a Kosovo-headquartered technology integrator with more than 20 technical, commercial, and project-management professionals and an established portfolio of national-security, defense, and critical-infrastructure technology deployments. The company brings this international delivery capability into the U.S. federal market as a specialized subcontractor and teaming partner, offering cybersecurity and compliance advisory, enterprise information technology (IT) and operational technology (OT) infrastructure integration, threat intelligence, and counter-Unmanned Aircraft System (counter-UAS) technology integration for defense, homeland security, law enforcement, and critical-infrastructure programs.

CORE COMPETENCIES

- **Enterprise IT Infrastructure & Networking:** design, procurement, and integration of multi-vendor data center, server, storage, and enterprise networking environments (Dell Technologies, Cisco, Hewlett Packard Enterprise, Microsoft), including Software-Defined Wide Area Network (SD-WAN), Secure Access Service Edge (SASE), and Layer 2/3 network architecture for government and critical-infrastructure modernization.
- **Cloud, Virtualization & Data Protection:** VMware vSphere, vSAN, and Cloud Foundation deployments; Microsoft Hyper-V clustering; Veeam-based backup, replication, and disaster-recovery architecture built for high-availability requirements.
- **Cybersecurity & Compliance Advisory:** next-generation firewall, intrusion prevention, endpoint detection, security information and event management (SIEM), and identity and access management deployments supporting Zero Trust Network Access, plus managed virtual Chief Information Security Officer (vCISO) services supporting Cybersecurity Maturity Model Certification (CMMC) readiness.
- **Defense & National-Security Technology Integration:** secure communications, threat-intelligence and open-source intelligence (OSINT) platforms, hybrid-threat monitoring, and counter-Unmanned Aircraft System (counter-UAS) technology integration for defense and intelligence customers.

DIFFERENTIATORS

- Proprietary Defense virtual Chief Information Security Officer (vCISO) platform, currently in active deployment, delivering managed CISO-as-a-service at a fraction of full-time executive cost.
- International affiliate delivery capability through E-Tech, backed by direct technology partnerships with Axon, Seerist, and General Dynamics Information Technology (GDIT).
- Proprietary Cyber Threat Intelligence (CTI) optimization system combining open-source intelligence with geopolitical threat-signal analysis for national-security customers.
- Proven ability to lead consortiums and coordinate specialized subcontractors on complex, multi-phase technology deployments.

RELEVANT EXPERIENCE

Job Title: Cybersecurity Technology Integration

Client: A Foreign Ministry of Defense and National Security Force

Date: 2019 to Present

Scope of Work: Continuous delivery of cybersecurity and information technology initiatives supporting national defense operations. Engagement details are classified and not disclosed.

Job Title: Counter-Unmanned Aircraft System (Counter-UAS) Technology Integration

Client: A Foreign National Law Enforcement Agency

Date: Active

Scope of Work: Systems integration and data-storage architecture supporting counter-UAS detection technology for national security operations.

COMPANY DATA

Legal Entity	CyberOne USA LLC
UEI	V6LVBDH56CV7
CAGE Code	18KA4
Business Size	Small business, 24 employees
Business Established	2025
Bonding Capacity	\$1.5 million
Project Range	\$100,000 to \$500,000
Service Area	Northeast Region: District of Columbia (DC) to Boston, Massachusetts

NAICS CODES

- 541512** **PRIMARY** Computer Systems Design Services
- 541519** Other Computer Related Services
- 541690** Other Scientific and Technical Consulting Services

CERTIFICATIONS & LICENSES

- ISO 9001, Quality Management
- ISO/IEC 20000, IT Service Management
- ISO/IEC 27001, Information Security Management
- Cybersecurity Maturity Model Certification (CMMC) Level 1 Self-Assessment
- Procurement Integrated Enterprise Environment (PIEE) Registration

TARGET AGENCIES

- Department of Defense (DOD)
- Department of Energy (DOE)
- Department of Homeland Security (DHS)
- Department of State (DOS)
- State and Local Governments
